Large natural on E side Woody Ridge, Cooke

Woody Ridge
Cooke City
2/14/2020
Code
SS-N-R1-D2-O
Elevation
10200
Aspect
E
Latitude
44.97390
Longitude
-109.92400
Notes

From an observation, " Climax slid quite large several days ago. We could get a good look at the crown because of the wind, but I'm guessing it was a wind slab that stepped down."

"Climax" is the what the locals call the large east face on Woody Ridge above Hayden Creek.
