

Shooting cracks at Telemark Meadows

Telemark Meadows

Southern Madison

12/17/2020

Code

Latitude

44.88990

Longitude

-111.06300

Notes

From observation: "the 12" or so of facets on the ground have no cohesion .. there is 12-18" of fairly high moisture content snow on the facets ... On several steeper slopes there was considerable collapsing and shooting cracks but no whumpfing. I am sure these would have slid if the slope angle was steep enough."
