

## NE aspect of the E facing bowl off Elephant - northern Gallatin

Date  
Sun, 02/28/2021 - 13:21  
Activity  
Ice Climbing

Saw this crown the morning of 2/28 from G1 while climbing. Looks like it broke naturally within the past day or two

Region  
Northern Gallatin  
Location (from list)  
Elephant Mountain  
Observer Name  
Virginia Beineke
