

## Small avalanche Lower Nose

Bridger Bowl  
Bridger Range  
11/24/2022  
Code  
SS-R1-D1-I  
Elevation  
7500  
Aspect  
E  
Latitude  
45.81560  
Longitude  
-110.92300  
Notes

Skiers at Bridger Bowl observed a small avalanche that was likely human-triggered on the Lower Nose. New snow and wind combined to create instabilities on slopes. The ski area is closed and represents a backcountry snowpack until the ski patrol begins avalanche mitigation in preparation for the opening.
