

Natural avalanche on Silken Falls, Hyalite

Date

Tue, 01/24/2023 - 23:40

Activity

Ice Climbing

An ice climber across the valley observed a large natural avalanche running over Silken Falls ice climb on the east side of the Main Fork. Wind was blowing and moving snow all day. This gully gets wind-loaded and was the site of a fatal avalanche in 2009.

Region

Northern Gallatin

Location (from list)

Hyalite - main fork
