Cracking and Collapsing in Hyalite

Northern Gallatin 12/24/2023 Code Latitude 45.50720 Longitude -110.94400 Notes

Skiers in Hyalite experienced many large collapses after the recent storm,

From obs: "Despite the unconsolidated snowpack, I had 25+ significant collapses while breaking trail, with shooting cracks up to 50ft long. The collapses created visible waves on the surface of the snow and shook small trees and weeds sticking through."
