

Debris from recent slide through thick trees

Date

Sat, 02/17/2024 - 16:50

Activity

Snowmobiling

From FB 02/17/24: "Observed runout debris from a small avalanche on a south facing forested slope in Upper Tepee Basin. Shows avalanches can occur through forested areas."

Region

Southern Madison

Location (from list)

Tepee Basin

Observer Name

Chris Sexton
