

## **Noticeable crown Fan Mt.**

Date

Mon, 03/04/2024 - 10:15

While traveling to Big Sky from Ennis, I noticed a large avalanche on the east face of Fan Mt.

Crown appears to start at approx. the 9500' elevation with a vertical drop of at least 2000'. Crown appears to be 200-300 yards wide

Region

Southern Madison

Location (from list)

Fan Mountain

Observer Name

Jim Giglinto
